

**Weatherization improvements for homeowners John Leigh & Eydie Pines:
heating system upgrade; air-sealed crawlspace, boiler room, attic; and insulated
crawlspace.**

Results:

- Air leakage reduced by. 12.1%
- Projected heat energy savings. . . . 22.88%
- Cost of job. \$11,148
- EVT incentives. \$999
- Net cost to homeowner. \$10,149
- Projected annual savings. \$1,066
- Years to payback/ROI. 9.5 / 10.5%
- Projected annual reduction CO₂. . . 4,264 lbs.

Note: Calculations do not include cost of initial energy audits. Projected monetary savings, years to payback, and ROI all assume stable heating fuel costs from time of weatherization.
